Profile

I have been interested in videogames all my life, and now I want to work in this amazing industry. I have always thought of myself as an optimistic person and I have always tried to do my best in everything I have done in my life, which has made me a hard-working person. Most of the people that I have met on my life can tell that I am a good and responsible person that find solutions to problems very quickly and effectively.

I started developing games the first year of university, so I do not have a lot of experience, but I am really excited to join this industry that has been a very important part of my childhood and learn from it.

Technical Skills

- Idioms (Spanish, English)
- Unity(C#)
- Unreal Engine (C++)
- Video games knowledge
- HTML

Relevant Games Industry Experience

Games Jam 2-days long (September 2020)	I worked with a group for 2 days in a game. I did not have much programming knowledge by that time, but I really enjoyed it.
---	--
